

Inviting new families

- OurKidsCode facilitated MeetUps are limited to six families at a time so that there is space in the room for warm ups, workshop activities and refreshments..
- To be sustainable, a club may want to have more member families on the understanding that not every family can attend every MeetUp.
- If a club finds that they have space for new members, they can invite new families to join them, or they may even keep a waiting list of families who want to join.

Ways to integrate new families:

- Share the **'Information for New Families'** document
- Share the OurKidsCode youtube channel **youtube.com/@ourkidscode**
- Request a Taster MeetUp with an OurKidsCode facilitator to introduce new families to the OurKidsCode experience.
- Invite new families to a MeetUp and lead them through the Dance Mat Project Guide to introduce them to the OurKidsCode experience.
- Share and discuss the club poster you designed as part of **Being a Positive Club**
